

# Aspterric acid

Cat.# BLK-0780

## Structure

**Origin:** *Penicillium sp.*

**CAS Registry Number:** 67309-95-9

**Appearance:** white solid

**Molecular Formula/ Weight:** C<sub>15</sub>H<sub>22</sub>O<sub>4</sub>=266.34

**Purity:** >95.0% by HPLC

**Solubility:** Soluble in 1mg/ml ethanol, methanol, DMSO

## Background Information:

Aspterric acid is sesquiterpene which produced by *Penicillium*. It shows inhibition of pollen development.

## Handling and Storage:

Store at -20°C.
